

Industrial Clean-up Services

Client:

Coal-fired power plant

Scope:

Large coal-fired plant requiring both routine and customized services

Zampell Value-Added:

While Zampell combines the dependability of routine cycle cleaning with the flexibility of custom industrial maintenance, other Zampell Companies can perform insulation and refractory services at industrial facilities.

What Our Customers are Saying:

“I want to thank you personally for your outstanding effort during our recent boiler house-cleaning project. Your leadership and drive to accomplish this very difficult task is appreciated by our whole staff. I look forward to working with you again and will request your presence when we implement our semi-annual scheduled cleanings next year. Thanks again.”
